最後一哩應用

包裹與快遞服務

專為低排放區與城市中心設計的快遞、速遞及包裹服務最後一哩路配送。

醫療保健

為藥局與診所提供安全、閉環式（全流程監控）的藥品配送。

餐飲業

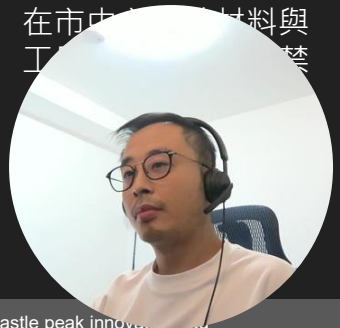

為外燴服務、餐廳及餐飲外送服務提供冷熱保溫箱。

零售業

提供從門市直接送到顧客手中的當日配送服務，高效實現「店到家」配送概念。

商業與工藝

在市中[illegible]材料與工[illegible]禁

Integrated POS system

All-in-One Point of Sales System
A comprehensive POS solution designed to enhance retail and delivery operations, including:

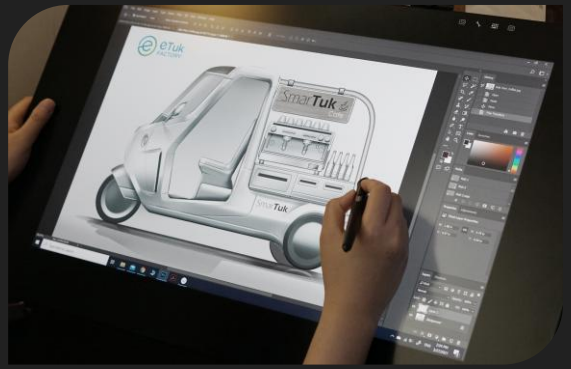

- Stock Management: Efficiently track and manage inventory.
- Payment System: Secure handling of cash transactions with detailed financial records.
- Sales Reporting: Visual experience to provide Insights into profitability and performance metrics.
- Trend & Business Gap Analysis: Utilizes IoT data to analyze customer behavior
- Assistance to build up Marketing Strategy (4P) for various business needs:
    - Product: Provide hints for identifying market trends.
    - Price: Competitive pricing strategies based on comprehensive data analysis to optimize profitability.
    - Place: Strategic placement of mobile units and POS systems to reach target markets efficiently.
    - Promotion: Data-driven insights to design marketing campaigns and promotions that boost engagement and driving sales.
